Portable Fire Extinguisher Course

RoSPA & CPD Approved

With the Portable Fire Extinguisher Course, you will learn how to identify the different types of fire extinguishers that might be installed within your workplace and what situations they might be used in. At the end of the final module, you will be presented with a simulation that will test what you've learnt.

Current legislation applies to all workplaces regardless of the number of employees and requires employers to provide adequate training in fire awareness for all members of their staff.

Our online fire safety training courses are aimed at all employees to assist them in identifying and reducing the risk a fire poses in the workplace.

The Portable Fire Extinguisher course provides training in the use of different types of portable fire extinguishers and the protocol of tackling a fire.

Important Note: Please note the Portable Fire Extinguisher course is an awareness course only, if you need further practical training, you can get in touch with us to arrange this.

Course	Module Number	Module Name	Pass % Required
Fire Extinguisher	1	Fire Extinguishers	70
Fire Extinguisher	2	Pre-Engagement Action	70
Fire Extinguisher	3	Using a Fire Extinguisher	100
